PROFESSIONAL PROFILE

As a Full Stack developer, I apply my strong knowledge and experience in quality assurance to the exciting world of web development. My background in quality assurance has provided me with analytical skills, meticulous attention to detail, and a focus on excellence. I specialize in Front-end and Back-end, and I have experience in agile methodologies (SCRUM), GIT, data structures, algorithms, and CSS frameworks. My ability to analyze massive data sets and my teamwork experience are strengths that I can apply in web development. I am excited to combine my previous experience with my passion for technology and contribute to the success of projects in this ever-evolving field.

PROFESSIONAL EXPERIENCE

Freelance React Native Developer

June 2023 - Present

SYNCRONIZA - Colombia

- Design and development of an Android application for data entry and management within an enterprise system (SIM ERP).
- Successful implementation of API integrations and web services to enhance the application with geolocation capabilities and optical character recognition (OCR).
- Management and optimization of SQL databases. Designed and maintained databases that efficiently supported company operations, ensuring data integrity and accurate information retrieval.
- Performance optimization of applications for a smooth and fast user experience.

Maquetador Freelancer

July 2023 - Present

CARGATUCOCHE - Spain

- Creation of high-quality mockups and prototypes for various web pages and landing pages, merging creative vision with required functionality.
- Skilled transformation of visual designs into HTML and CSS code, ensuring accurate interpretation and exceptional responsive experience.
- Close and harmonious collaboration with graphic designers and developers to achieve seamless synergy between artistic design and technical execution, resulting in integrated and visually impactful products.
